

PARENT/GUARDIAN PRESENTATION

IN LIGHT OF RECENT EVENTS:

Do you know what happens during an emergency situation??

Due to recent events that took place in our community and within our own school division, there was a lot of confusion regarding emergency procedures. We want to give parents and guardians a first hand look at what happens during these emergency situations.

You will get a tutorial of **ALL procedures including 'LOCKDOWN' and 'HOLD & SECURE'** outlining the details of both and the differences between them, as well as others.

Please join us during our next parent council meeting, **Thursday May 5th @6:30pm** in the staffroom. The director of Health & Safety for Prairie Rose School Division, Janine Tolhurst along with our Principal, Ms. Carol Carlson and Vice Principal, Mrs. Cyndy Lutz will guide you through these procedures and answer any questions you may have.

This is an informal question and answer period.

Our students know and practice these procedures regularly but it became clear that parents do not have the same opportunity to familiarize themselves. When an emergency situation arises, we want our parents to be confident in our procedures and the safety of their children.

This is YOUR opportunity.

Due to time and space constraints, please do not bring your children. This will be an adult discussion and your children are already familiar with these procedures.

Sincerely,

Irvine School Parent Association
